

This afternoon, Joe Biden announced that he would not seek reelection, finally bending to Far Left Democrats' anti-Democratic demands, which overturned the will of 14 million Democrat voters who elected Biden as their nominee and part of a desperate attempt to cover up the fact that Joe Biden is unfit for office.

For the last three and half years Far Left Democrats and their loyal stenographers in the mainstream media rushed to Biden's defense, claiming that the clearly diminished Biden was as sharp as ever and accused House Republicans of peddling conspiracy theories when we raised questions about his fitness to be our Commander-in-chief. Every single one of these people especially Vice President Kamala Harris who participated in this coverup must be held accountable.

MAKE NO MISTAKE: Biden's announcement will not save Far Left House Democrats from being held accountable by the American people. Far Left House Democrats own Joe Biden and Kamala Harris' failed record. They are just as responsible for causing inflation to skyrocket, gas prices to reach record highs, a historic invasion at our Southern and Northern Borders that has turned every community into a border community, and America's weakness on the world stage has plunged the world into a state of constant chaos.
