SUBJECT: Harris Creates Strong Down-Ballot Opportunity

Overview

San Francisco radical Kamala Harris is seizing the Democrat nomination from Scranton Joe Biden. Democrats subverted the democratic process to anoint Kamala Harris with no input from their voters, and Republicans must be ready to shift gears.

As Democrats and the media laud Kamala Harris, it is important to remember the only reason Joe Biden held on as long as he did was by aggressively making the case that his Vice President is an even worse candidate than him. The only reason Democrats settled on Harris is that it would be politically “untenable” to skip over her.

Furthermore, Kamala Harris creates a strong down-ballot opportunity for Republicans. The case against Joe Biden relied in part on the fact that he was mentally unfit to hold office, which was difficult to translate down-ballot. Kamala Harris owns the Biden Administration’s baggage and is an avowed radical. An endorsement of Kamala Harris is an endorsement of her extreme agenda, and Harris is arguably a bigger threat to Democrats’ Senate majority than Joe Biden.
