

Republicans have never had less time to define the presidential nominee of our opponents. Because of that, it is vital that our entire Conference is on message and working together to present Kamala Harris as an extreme San Francisco progressive who is out of step with the American people.

DO: Talk about how Harris owns every one of Joe Biden's policy failures as his Vice President:

- Border czar
- Support for inflationary spending bills
- Projecting weakness abroad
- Undermining our law enforcement
- Sympathy for Hamas and anti-Semitic pro-Hamas rioters

DO: Talk about how Harris is even more progressive than Joe Biden – she is the most extreme progressive presidential nominee in history:

- Supports decriminalizing illegal border crossings
- Supports benefits for illegal immigrants
- Supports abolishing private health insurance
- Supports bailing out violent rioters
- Supports banning fracking

DO NOT: Waste time talking about anything other than what Harris WOULD DO as President.
