

Congress of the United States
Washington, DC 20515

March 2, 2023

Chairman Jordan,

It has been brought to my attention that you have sent witness interviews to select media outlets with the intent to create a false public narrative, circumventing the legislative process and undermining the very "honest broker" posture you have requested of me as the Ranking Member of the House Judiciary Select Subcommittee on the Weaponization of the Federal Government.

Additionally, I have learned through social media and your notice to another outlet that we will have a forthcoming hearing on the subject of Twitter next week. You have not afforded notice to me or the Subcommittee or full Committee staff of this hearing which would be at the least a professional courtesy. I must assume from these actions that you are not a professional, nor are you an honest broker.

Sincerely,

Congresswoman Stacey E. Plaskett
Ranking Member
House Judiciary Select Subcommittee on the
Weaponization of the Federal Government

Cc: Congressman Jerry Nadler
Ranking Member
House Judiciary Committee
